

Hi Neighbor,

Many of us are feeling anxious and uncertain in the face of the novel coronavirus (COVID-19) pandemic. This is a new and challenging threat. It has proven to spread throughout communities across the world, and ours is no exception.

During this time, I want to make it as easy as possible for people to find the most complete, up-to-date, and factual information on all aspects of this crisis that is changing by the moment. To achieve that, [I have compiled a Coronavirus Community Resource Guide, which will be updated regularly with the latest information.](#) It has information about good public health practices and guidance for where to turn for support in navigating childcare, small business, seniors, and more. Please share it with your friends and family and reach out to my office to let us know what other information you would like included in it.

Along with this, I've included many of the basic fundamentals like washing our hands, disinfecting surfaces around us, and staying home to stop the spread. These are repeated so frequently because these practices are essential, and they work. I hope that the information about Illinois' stay-at-home order, the lists of resources, and the summaries of actions that I and others in government have taken are informative and helpful to you. Click [here](#) to check it out!

[**READ MY CORONAVIRUS COMMUNITY RESOURCE GUIDE**](#)

The coronavirus outbreak requires all of us to step up to save lives and protect our community, and we will face this challenge by using every tool that we have to help us through this crisis.

I know that many hardships remain, and I want you to know that my office stands ready to support you in every way we can. My office is taking your calls seven days a week at (630) 549-2190 or (202) 225-2976. Our phone lines are much busier than usual, but please know that if you leave a voicemail with a question, my staff will call you back. I also encourage you to sign up for email updates at my website underwood.house.gov.

We are all in this together, so everyone must do their part to flatten the curve and protect our families and neighbors.

Sincerely,

[Are you interested in receiving updates on coronavirus? Please let me know what you'd like to hear more about as it relates to coronavirus \(COVID-19\).](#)
